Variable Data

High Definition Images

FCL Graphics

Incorporated

FCL Graphics offers leading edge Digital print technologies by utilizing a new generation Xerox product called the Xerox Color 1000 Press. The Color 1000 Press delivers sharp, rich, digitally mastered image quality at 100 pages per minute by utilizing Xerox's low melt, EA Dry Ink without the use of fuser oil. This produces improved image quality and a smooth offset like finish.

Advanced Xerox color management technology with closed loop process controls enable vivid and consistent color rendition. The Color 1000 Press maintains benchmark color consistency, from page to page and job to job. Other advanced features include: Automated Calibration, Advanced Profiling, and automated image to media alignment.

For all your digital print, variable data, and personalized print product needs, let FCL Graphics provide you with leading edge solutions that increase quality, and productivity, with reduced job delivery times.

FCL Graphics, where a promise made is a promise delivered.
