

DIGITAL PRE-PRESS EQUIPMENT

Our digital pre-press division has today's most up-to-date equipment. Our capabilities include Macintosh and IBM workstations, high-end scanners, digital color proofs, computer-to-plate technology, ISDN lines and image archives.

Workflow

Scitex Brisque
Prinergy Evo
FCL Online Soft Proofing System

Proofing

- (1) Kodak Approval XP4
20" x 26" format digital proofer
- (1) Epson Stylus PRO 9600
- (2) Iris Digital Dylux
42" wide, backed up format

Servers

- (1) Scitex RiproServer
720 gb

Media

CD-ROM and DVD-ROM
FTP / Email
email: dnetwork@fclgraphics.com

Computer-to-Plate

- (1) Scitex Lotem
Integrated registration punch
In-line film processor
Thermal plate recorder
- (1) Scitex Lotem
Quantum

SHEET-FED PRESSES

- (3) Man Roland 700
6 color plus aqueous coating tower
28" x 40"
Utilizing computer controlled color

HEAT-SET WEB PRESSES

- (3) Didde Comperfector
6 units with remoist glue and perf
20" x 23"
- (1) Heidelberg M-1000BE Full-web
6 units with remoist glue and perf,
pre-folder with combination folder
22.75" x 38"
Utilizing closed loop color management
- (1) Heidelberg Harris M-1000 Full-web
5 units
22.75" x 38"
Utilizing closed loop color management

FINISHING/BINDERY EQUIPMENT

- (6) 45" Wohlenberg computerized paper cutters
- (5) MBO folder 23" x 36"
with Pafra gluing unit and double gatefold attachment
- (5) MBO folder 26" x 40"
with Pafra gluing unit and double gatefold attachment
- (1) 5-hole automatic drill
- (1) Autofeed shrink-wrap machines
- (1) #530 Buskro portable wafer sealer with 3 heads
- (1) HHS America gluing system with 4 heads (fugitive/regular glue)
- (2) Unique Roto Crease: scoring and perf units
